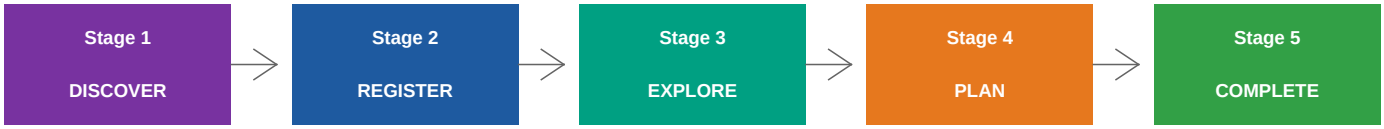
Tech:	React + FastAPI + PostgreSQL + Vercel
Team:	itskian2007

1. Journey Overview

The Customer Journey Map traces the complete experience of a user - from discovering the Travel Planner platform to completing a fully personalised 10-day itinerary. Five journey stages are mapped across touchpoints, user actions, thoughts, emotions, and opportunities.

2. Journey Stage Flow Diagram



3. Detailed Journey Map

1. DISCOVER

Touchpoints:	Google Search, Social Media, Word of Mouth
Actions:	User searches for travel planning tools online
Thoughts:	"I need help planning my trip" "Is this trustworthy?"
Emotion:	Curious / Slightly Anxious
Pain Point:	Too many options, unclear which tool is best

2. REGISTER

Touchpoints:	Registration Page, Email Verification
Actions:	User enters name/email/password, verifies account
Thoughts:	"Is my data safe?" "Hope this is worth it"
Emotion:	Hopeful / Slightly Cautious
Pain Point:	Friction in multi-step registration

3. EXPLORE

Touchpoints:

Destination Gallery, Filter Controls

Actions:

Browses 20 destinations, applies mood/budget/diet filters

Thoughts:

"Wow, so many choices!" "This actually knows what I want"

Emotion:

Excited / Engaged

Pain Point:

Decision paralysis with 20 destinations

4. PLAN

Touchpoints:	Itinerary View, Day Cards, Landmark Images
Actions:	Views personalised 10-day itinerary with images
Thoughts:	"This is exactly what I needed!" "The images are amazing"
Emotion:	Delighted / Confident
Pain Point:	Wants to customise individual days further

5. COMPLETE

Touchpoints:	Final Itinerary, Social Share, Feedback
Actions:	Reviews final plan, saves/shares, gives feedback
Thoughts:	"I'm ready for my trip!" "I'll recommend this"
Emotion:	Satisfied / Loyal
Pain Point:	No booking integration yet
