Phase 8 | Project Demonstration

Project Demo Planning

AI-Powered Travel Planner | Smart Situational Itinerary Engine

Live URL:	https://travel-planner-iota-plum.vercel.
GitHub:	github.com/itskian2007/travel-planner
Tech:	React + FastAPI + PostgreSQL + Vercel
Team:	itskian2007

1. Demo Overview

The project demonstration is a structured 20-minute presentation showcasing the full capabilities of the AI-Powered Travel Planner. The demo is conducted live using the deployed application at https://travel-planner-iota-plum.vercel.app/ with a prepared script, fallback plan, and Q&A session.

2. Demo Timeline - 20 Minute Schedule

00:00-02:00	**Introduction & Problem Statement** Brief team intro, explain travel planning pain point, show solution overview slide
02:00-04:00	**Live Website Overview** Open travel-planner-iota-plum.vercel.app, show landing page, navigation structure
04:00-07:00	**Authentication Flow Demo** Register new account live, login, show JWT auth, forgot password flow
07:00-10:00	**Destination Browsing + Filters** Show all 20 destinations, apply mood/budget/diet/persona filters in real-time
10:00-15:00	**Itinerary Generation Demo** Generate full Tokyo itinerary, walk through Day 1-3 curated and Day 4-10 procedural
15:00-17:00	**Image Quality + Deduplication Proof** Show Wikipedia-verified images, demonstrate zero duplicates across destinations
17:00-19:00	**Architecture & Tech Stack Brief** Quick slide: React + FastAPI + PostgreSQL + Vercel architecture diagram
19:00-20:00	**Q&A and Wrap-Up** Open floor for questions, share GitHub link, distribute documentation

3. Demo Environment Setup

Required for demo day:
- Laptop with Chrome browser (latest version)
- Stable internet connection (min 10 Mbps)
- Projector / screen share to large display
- Backup: recorded screen capture of full demo flow
- Slide deck: 5 slides (intro, problem, solution, arch, future)
- Printed one-page executive summary for evaluators

4. Contingency / Backup Plan

Risk Scenario	Contingency Action
Internet Outage	Pre-recorded demo video ready on local machine
Vercel Downtime	Localhost version running on demo laptop (npm start)
Database Issue	Mock data fallback mode in frontend for demo
Login Failure	Pre-created demo account: demo@travel.com / Demo@2024
Slow Loading	Pre-cached itinerary screenshots as instant fallback
